

**Carrier** XARIOS

*Modular range for vans and medium-sized refrigerated vehicles.*

The XARIOS range is a direct drive refrigeration unit demonstrating unique versatility for vans and trucks. Its design enables transportation of fresh and frozen goods, in single or multi-temperature applications, in vehicles with box volumes from 8 to 48m<sup>3</sup> and is available in road only or road and standby versions.

Featuring R404A refrigerant, XARIOS offers a large range of capacities covering temperatures from -20°C to +10°C. Supported by an extensive lineup of ultra-slim evaporators, multi-temperature configurations are widely available for multi-product deliveries.

► **Optimised cost of use**

Balancing performance and cost of operation, the XARIOS range offers simple and rapid installation, light weight evaporators to optimise load space and enhanced accessibility for reduced maintenance time.

► **Driver's comfort**

To limit the impact on the community and improve the driver's comfort, the XARIOS range shows low noise levels. Eventually, the cab command is easy to operate and enables an automatic selection of road or road and standby mode. The units' condensers and evaporator skins are fully recyclable.

Xarios 500 / 600 / 600MT

**Evaporator Range**

MXL 1100

MXL 1550

**Accessories**

- Road compressor
- Road compressor mounting kit
- Drain water heater for deep frozen application
- Extension connection set for flexible evaporator positioning
- Door switch for doors openings
- Voltage reducer 24 Vdc for trucks

		■ Capacity (Watts)*		■ Condenser		■ Evaporator			12 Vdc	24 Vdc
		0°C	-20°C	Weight (kg)		Type	Weight (kg)	Airflow (m3/h)		
				Road	Standby					
Mono temperature	XARIOS 500	4750	2150	87	154	MXL1100	28	1500	X	X
	XARIOS 600	5500	3000	83	147	MXL1550	42	2100	X	X

\* Road capacity at ambient temperature of +30°C (per A.T.P. procedure)

\*\* 24 Vdc available with Voltage reducer accessory
